College Planning 101

How do you and your student find the best college when so many say, "we have a program and services for learning disability students"?

College programs vary greatly - from minimal peer tutoring and math and writing centers, to unlimited professional tutoring, preferential registration, and quiet test rooms.

Navigating through the many resources and information guides can be daunting. However, following these steps and asking key questions before applying to a college can help strengthen your ability to maneuver through the maze of college planning.

We can take a great deal of mystery out of the process!

Let our Certified School Psychologist review this complex topic with you and put many things in perspective.

In this workshop, parents of special education students will be guided through a comprehensive presentation, provided tips and questions to ask, and given other valuable information to help best advocate for your student.

What you need to know:

- A RECORD OF SUCCESS - Lance Halpern of Markell Counseling provides high school students with learning disabilities the opportunity to be fully integrated into a College or University's wide variety of programs with impressive results
- A STRUCTURED PLAN OF INTENSIVE ADVISEMENT AND SUPPORT - allows students with learning disabilities to consider college and achieve postsecondary education goals
- Workshops held at Markell Counseling or at a location of your request
