

Educational Psychology Services for Schools

Markell employs a highly trained, fully qualified **School Psychologist** and **Educational Consultant** to help schools identify students' learning disabilities through testing and analysis of test scores, reports, and IEPs.

With the use of specialized testing and evaluation, we can arm your school district with the information needed to develop the right Individualized Education Program (IEP) that will maximize your students' potential for success based on the Special Education Services your school district currently offers.

We also provide comprehensive counseling services to individuals and families to assist parents and their children with the challenges of parenthood and maturation. This "whole family" approach empowers students and allows them and their loved ones to share a more peaceful existence. With a decreased level of stress at home and school, students are able to flourish while pursuing their educational goals.

We provide:

- Fair and independent guidance/consultation on your particular school-based instruction staffing

- Service support that allows you to effectively service the needs of students in a cost effective manner
- The use of nationally normed tests of cognitive abilities as part of evaluation process
- Analysis of test scores, reports, and previous IEPs that are factored into our evaluations
- Individual & family counseling services to support the whole family
- Skill therapy groups - teaching empowering life skills to families
- Completion of **ALL** evaluation reports within **48 hours**

If interested in adding our **Skill Therapy Groups, Individual & Family Counseling,** and/or **Psychological Learning Disability Testing Services** to your school's offerings, contact our advocate:

Lance Halpern, Ed.S., LPC. • Certified School Psychologist N.J./N.Y. & Licensed Professional Counselor • **732.817.0103**
